## Get to know us...

Nurus, from 1927 to the present, makes difference in the management and design of professional furniture with a contemporary approach. At Nurus we shape the physical, emotional and cognitive characteristics of workspaces, educational spaces, healthcare spaces, cultural spaces and airports. Our products and solutions are inspired by empathy, developed by research and synthesized by our experience over 96 years in professional space design.

Nurus People have stuck loyally to the same ethical values for years; it is a large family consisting of employees, designers, suppliers, solution partners and users. Each member of the family is bound together by trust and loyalty.

# Where ideas, objects and people meet.

Today , Nurus brings together tens of thousands customers over 50 countries with its innovative & sustainable solution for professional spaces.

# Vertically Integrated Production

Nurus manufactures 90% of its products in its own facilities.

Working with a vertically integrated business model, Nurus produces almost everything in-house, except for raw materials. It has a fully integrated production facility ranging from machining, mold production, natural wood, engineered wood, aluminum injection, plastic injection, metal sheet and profile production to the production of furniture components.

## Enabling Creativity

For Nurus, design is not a beginning but the end of a phase that begins with need. Nurus understands the changing needs of people and produces solutions that are beyond its time, designing products that shape the future with its innovative approach based on research development.

## Caring Sustainability

Nurus understands, stands by, empathizes with humankind, and performs its responsibilities meticulously in every phase of manufacturing.

Nurus makes sure that the materials used in manufacturing are in conformity with international norms and standards, are certified, recyclable and environmentally friendly.

Sustainability is a core part of our organizational mission. Because we control the entire supply chain, we meet and exceed the highest standards of sustainability. Supply chain, combined with efficient domestic manufacturing footprint, provides a solid platform for future growth in the industry.

With the solar panel investment in an area of 18,500 square meters, established on the roof of Nurus' factory, 2,200 tons of carbon dioxide emissions are prevented, and the clean air provided by 37 thousand trees every year is saved.

## Being Reliable

With our reliable service understanding, technological production facility and high logistics network, we can reach every point of the world on time.

# Innovative Solutions For Different Industries

## WORKPLACE SOLUTIONS

From corporate offices to home offices, from start-ups to well-established corporations, Nurus analyzes the changing needs of its customers with different structures who are operating in various industries, and offers tailor made solutions to their changing working requirements.

## HOSPITALITY SOLUTIONS

Nurus aims to maximize comfort and motivation of the user in guest rooms, lounge areas, restaurants, meeting rooms, auditoriums, administrative offices and business centers.

## EDUCATION SOLUTIONS

Nurus designs innovative products suitable to the changing dynamics of education, also feeding on its large-scale projects in the global markets.

## TERMINAL SOLUTIONS

Terminals where human traffic flow is the most intense produce different requirements for staff and passengers. With the changing speed of technology, human behaviors and habits also change rapidly.

## ONE OF THE WORLD'S BEST PERSONAL PERFORMANCE TASK CHAIRS

Me Too, designed to give users a sense of comfort and individuality, supports dynamic seating and high performance with its Fluid Motion Plus mechanism. Its three-dimensional organic form, developed with advanced technology that provides a high level of precision adjustment, adapts perfectly to your movements while you work - few task chairs in the world can do this. Thus, it relaxes your blood circulation and muscles and minimizes discomfort and fatigue caused by prolonged sitting.

Certificate of Ergonomics (TS EN ISO 9241-5):  
Ergonomic requirements for office work with  
visual display terminals (VDTs) - Part 5:  
Workstation layout and postural requirements.  
Certificate of Conformity (TS EN 1335)

MOVE WITH YOU LIKE A  
PART OF YOU

# Me Too

Me Too's high quality and safety standards have been approved internationally by GS Certification from LGA (Landesgewerbeanstalt Bayern) Institute.

Prolonged seated working presents several problems for physical health; the neck, shoulders, arms and legs. Sitting may be inevitable; so is coming up with answers to minimize fatigue. Me Too Fluid Motion Plus® is an individualized performance task chair designed for long work hours with its technological characteristics and state-of-the-art flexible structure.

Me Too is not only a personal study chair, but also a health tool that increases your productivity.

Produced in European standards, Me Too has the ability to tilt forward 8 degrees, 25-degree tilt movement to the rear and can be locked at 4 different angles.

SAFE AND SMART

# Mou

Design: Ayşe Bor

Mou is a smart and safe performance task chair that supports different work models.

The height-adjustable backrest which is the best feature of Mou performance task chair, helps you to work more efficiently by supporting your upper body during work. Mou's robust and ergonomic structure makes it an ideal choice for all co-working spaces from open offices to home-offices and workplaces where shift work is applied.

Mou is designed in accordance with international safety norms, have been tested and found to be in compliance with the ANSI-BIFMA X5.1-2017/5 standard test requirements. Certificate of Conformity (EN 1335)

## FREEDOM OF MOVEMENT

# Uneo

Design: Martin Ballendat

Uneo's sturdy and ergonomic build, its stylish and contemporary look makes it a natural choice for modern offices, personal workspaces like home-offices. Overall, it is the perfect match for any desk-bound task and an advanced performance task chair. Uneo is a self-adjusting, high-performance task chair that dynamically responds to your body weight. Its durable frame brilliantly supports posture changes.

# Air

Design: Sven Von Boetticher

## LIGHT, FLEXIBLE AND DYNAMIC

Air offers comfort and elegance to your workspaces with its elegant design. Air is a lightweight product, so users of all ages can easily lift it. It is designed to minimize health problems caused by sitting and encourages correct posture for a healthier work habit.

Air is a self-adjusting, high-performance task chair that dynamically responds to your body weight. Its durable frame brilliantly supports posture changes. The 70cm 5-star base diameter helps maintain balance against tipping and encourages safety at work, as well as freedom of movement.

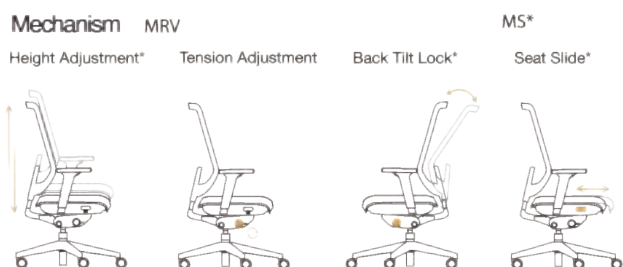

# Tulya

Design: Massimo Costaglia

Tulya's robust and ergonomic structure is an ideal choice for all work areas, from open offices to home-offices and workplaces where shift work system is applied. Tulya's weight sensitive mechanism adjusts itself according to your body weight without adjusting the stiffness and provides you with the most suitable adjustment, allowing you to sit healthy and comfortable.

# Trea

Design: Paul Brooks

A wide range of options for use in all living spaces such as homes, offices or public places. Comfy, cozy and adaptable despite its simple looks.

Trea Dyna-Support® reacts to the weight of you, eliminating the need to make any special adjustments. It is a weight activated mechanism with synchronous motion that helps keep your body in a healthy, natural position through average working hours.

# Waves

Design: Paul Brooks

## LONGEVITY AND HOLISTIC THINKING

Dynamic sitting with high-tech, elastic mesh backrest that smoothly adapts to your movements. Continuous organic form unites backrest with the seat pan. Highly adaptable -to both you and your surroundings- with its elastic structure. An interrupted figure from lightweight, unibody frame in black or light grey.

The integrated recline mechanism allows up to 9 degrees backwards and a degree of forward motion. Waves promotes safety and ease of use in shared work areas, meeting spaces and educational environments, training centers, hotels, libraries, home offices and more.

Height Adjustment

Back Tilt

# Alava

Design: Stefan Brodbeck

## STYLISH AND ORGANIC FORM

Alava wields a modern character in a unibody, shell-like form. Alava combines comfort and warmth in its design details. Rich product range allows for use in a variety of spaces including offices, lounges, waiting rooms; in accommodation, hospitality and educational zones.

Alava makes a difference with its design to the space you use and creates awareness with its environmentalist aspect. Alava is manufactured from materials that are a hundred percent recyclable.

# Flora

Design: Stefan Brodbeck

## SIMPLICITY WITH GOOD ERGONOMICS

Flora combines formality and comfort with its simple and modern design. Featuring rich colour choices along with different leg options, Flora fits into all living spaces from executive offices to cafés, homes and waiting rooms.

A wide range of colours are available for the upholstery. Flora can easily fit to every occasion and can be mix & match.

ENSURING A LEVEL OF COMFORT  
THAT IS FIRST REVEALED UPON USE

# Toya

Design: Nurus D Lab.

The family consists of lounge, small and mini versions to meet all the needs of seating for different types of environments, from the fast-waiting room to the relaxation area, from the informal meeting area to the conference table, while maintaining stylistic consistency between the environments.

# Aura

Design: Nurus D Lab.

## PRECISION MANUFACTURING

A statement of authority, elegance and high-end comfort for executive managerial areas. Craft your style with a wide range of material, color and quilted pattern options. Aura retains the family's distinctive figure through executive offices and meeting areas as well as lounge applications.

# Metope

Design: Favaretto & Partners

## DIFFERENT FRAMES ULTIMATELY RESULTING IN A VARIETY OF MODELS

Pull up a chair and let yourself be embraced by luxury. The comfort of the Metope invites intimate meetings and lively discussions. Its friendly design with floating armrests offers you enough space to settle down comfortably in the corner of the seat.

## ITS DISTINCTIVE SHAPE, WHICH ALWAYS REMAINS THE SAME

Unite the armchair with its family members at one table for a unique composition. Always alike, and slightly deviating at the same time, that's Metope, the multifaceted one. One time an armchair and then again a chair and sofa, at home in an office, then in a hotel and then in public buildings again.

# Ron

Design: Nurus D Lab.

## HIGH-QUALITY CHAIRS THAT RESPOND TO YOUR EVERY MOVE

Sensibly designed to express a softer, more residential feeling with contract durability. Ron combines the comfort and craft of an upholstered lounge with the performance of a task chair.

## IT OFFERS A MODERN STYLE ROOTED IN TRADITION

Ron Executive, with its combination of ergonomics, design and functionality, is a chair that inspires strong emotions. A real creative challenge, it stems from two essential requirements: to embody the cutting-edge design of the twentieth century, and, at the same time, being enriched with innovative details.

# Sacha

Design: Nurus D Lab.

An ambitious and skillful addition to executive offices, meeting halls, waiting areas and lounges: Inspired by the ever-competitive automotive industry and the human form, Sacha's ergonomics bind high-end workmanship with superior comfort.

Overall, Sacha's detailed stitching and uninterrupted contours make it an essential contribution to the space it is used in. Sacha easily lends itself to several administrative work-spheres, complements your corporate identity and always manages to stand out.

Design: Favaretto & Partners

## SEAT ANGLE IS EVERYTHING

Perfect for long hours of sitting, Matilda is an excellent seating solution that prevents back strain. Matilda has two options; fixed one and rocking one. Fixed chair offers a height adjustable frame to control how low or high you want to sit while its backless design encourages an upright posture.

# Clopete

Design: Favaretto & Partners

**A PRACTICAL SEATING OPTION**

Clopete is the perfect result from good design and functionality. Safe space for your backpack, a charger for your devices, a table for your phone and your coffee, if it is necessary, it becomes a seat for an informal and fast sit. Clopete has a small form and is available in different finishing. It is a compact design and fits in all living areas. Easy to move and decorative item for homes, lounges, offices.

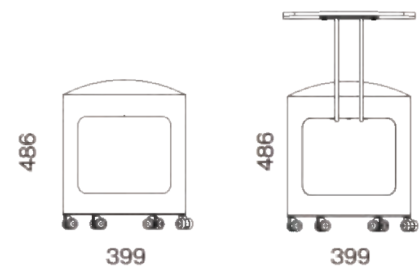

Design: Nurus D Lab

# R2

## THE UNOBTUSIVE GEOMETRIC SHAPE

Just like original R2-D2 it's named after, R2 is also designed to serve you at all times with functionality. Providing great comfort with upholstered seating surface offering a rich variety of colour and material choices, R2 also helps you store your personal belongings with the section under seating surface.

# Bunny

THE DESIGN LANGUAGE OF THE  
CHARACTERISTIC, GRACEFUL LEG

Bunny is named after its design  
resembling a rabbit. It has a perfect  
balance with its bunny legs.

Its lightweight makes it easy to move.

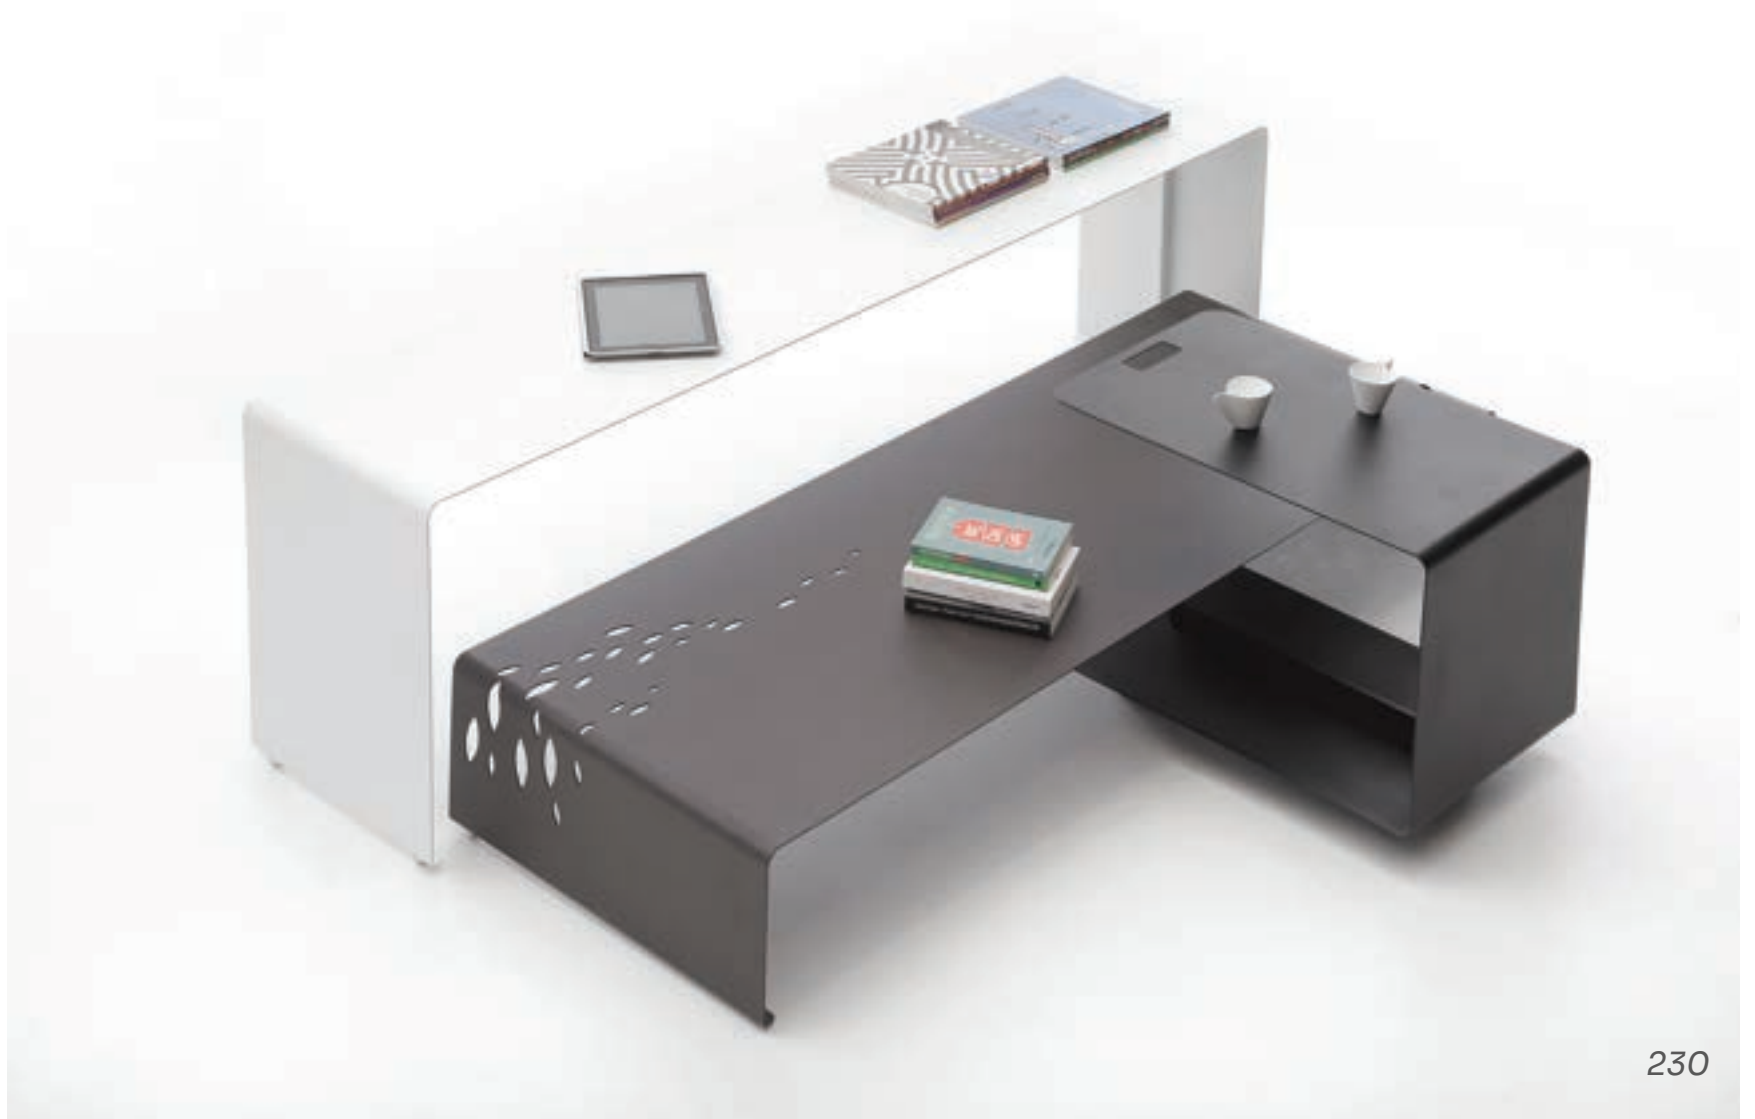

# Drop

Design: Aksu & Suardi

Drop has a smooth and stylish look with elegant patterns, and monoblock structure that displays masterful craftwork.

# Edgar

Design: Nurus D Lab

Edgar is an ideal choice for all living spaces with geometric lines and a sturdy structure. The collection has three separate options to fit in different environment designs: triangle, square, and rectangle.

Ela seamlessly blends into all living spaces with clear lines and simple design, may it be executive offices, homes, cafés, restaurants, hotels, lounges, or waiting rooms.

# Ela

Design: Nurus D Lab

# Sema

Design: Alper Böler & Ömer Ünal

Designed with inspiration from whirling (Sema) ceremony of Mevlevi culture, Sema has a plain look and a range of colour options, making it very convenient to be used in all living spaces including homes, hotels, cafés, work spaces and waiting rooms.

# Tau

Design: Nurus D Lab.

Tau coffee tables come in elliptical, circular, and rectangular forms with a minimalistic design and choice options for materials, enabling you to design interior areas in harmony with other furniture and accessories.

# Aqua

Design: Nurus D Lab

## OFFERING MULTIPLE SHAPES AND COMBINATIONS

Aqua features clean lines, lightness of scale and neat proportions connected to the design achievements of the last century.

Paradoxically, the collection is also distinctly modern.

# Coral

Design: Deniz Ilter

REFLECTIONS ON THE  
FUNCTION OF FURNITURE

Coral is made of solid ash, but is also available in other finishes and colours. It is as much at home in conference rooms, cafés, offices and other public spaces as it is in a domestic setting.

# Fiona

Design: Favaretto & Partners

A CONSCIOUS RENUNCIATION  
OF DECORATIVE DETAILS

# Brooklyn

Design: Nurus D Lab.

Coffee tables that may be used in combination with other items of the Brooklyn line, as well as a range of Nurus products. In various dimensions and build options. With optional wood or glass table top..

# Gate Exe

Design: Nurus D Lab.

Gate Exe coffee tables feature square and rectangular choices to embellish your workspace; both versions come equipped with castors, enabling you to host your guests more comfortably.

Eon

Gravity

Featuring a non-complex and simple design and offering rich material options, Eon easily fits into different areas. Solid, unibody wooden seating with a natural back curve delivers the comfort that make you feel home.

Rich colour, leg, accessory, and material choices featured in Eon seamlessly blends into all interior design styles, making it an ideal choice for common and social areas and public spaces such as cafés, restaurants, and educational institutes. Eon offers a very comfortable sitting experience with a curved back and integral polywood structure. Eon chairs can also be stacked easily.

# Eon

Design: Nurus D Lab.

# Lucrezia

Design: Favaretto & Partners

**ELEGANT CHAIR FOR SOCIAL  
AND COLLABORATIVE SPACES**

Lucrezia is a chair designed to be as multipurpose as possible: from the office to the home, to the cafeteria and restaurants.

The softness and roundness of the chair fits well in any space it is placed.

Design: Item Designworks

# Step

PERFECTLY SUITABLE IN  
ANY WORK, STUDY OR  
HOME ENVIRONMENT

Seating options help create spaces that elegantly and sustainably complement your needs, from meetings and conferences to more casual gatherings.

Step is the compact, lively and universal chair.

# S Chair

Design: Nurus D Lab.

# Redonda

Design: Giancarlo Bisaglia

A DYNAMIC AND DISTINCTIVE  
LOOK

Striking the perfect balance between geometric and organic shapes, the contoured curves of the collection's seating offers maximum support, enveloping the body in its slender shell. Offered in a range of shapes, materials and finishes, allowing for total customisation.

# Fresco

Design: Favaretto & Partners

**WITH ROBUST HIGH-QUALITY MATERIALS  
TO CREATE DURABLE CHAIR**

The Fresco desk and chair create comfortable and intimate workspaces. It is compact, has a functional design and is sophisticated build....

# Corvo

Design: Noé Duchaufour Lawrance

## A DYNAMIC AND DISTINCTIVE LOOK

Corvo, which combines the freedom and multitasking emphasis of the twenty-first century in its simple form, attains perfection with classical wood.

Corvo, which is manufactured using traditional manufacture methods, redefines contemporary by valuing human elements in design and manufacture. Corvo, the combination of structural form and fluidity, offers its user tranquility.

# Eon Stool

Design: Nurus D Lab.

## A DYNAMIC AND DISTINCTIVE LOOK

Carefully designed back curve and integral structure of Eon ensure a comfortable experience. Designed to deliver home comfort and warmth to different environments, Eon effortlessly blends with usage space with rich material choices, introducing colour and dynamism into the atmosphere. Eon bart stool provides extraordinary comfort, making them ideal for cafés, bistros, and all social areas that has high tables.

# Gravity

Design: Nurus D Lab.

## A GREAT GRAB-AND-GO STOOL FOR IMPROMPTU MEETINGS

The Gravity dynamic stool a perfect active sitting solution for dynamic work and cooperation areas. The upper part of the stool swings and moves together with its user, so it can also be used as a support when standing. Gravity's slip-resistant rubberized base keeps you stable while giving your body the freedom to change the position. By incorporating Gravity into your day, you will find that you feel more focused on your work. Due to its modern and sleek design, the stool will fit into every office space.

Gravity activates your legs and core to put your spine in a more natural posture halfway between standing and traditional 90-degree sitting. Sitting at an angle closer to 120-degrees opens your hips, improving both your posture and your circulation.
